

Horizon 2020

OPTIMODAL EUROPEAN

TRAVEL ECOSYSTEM

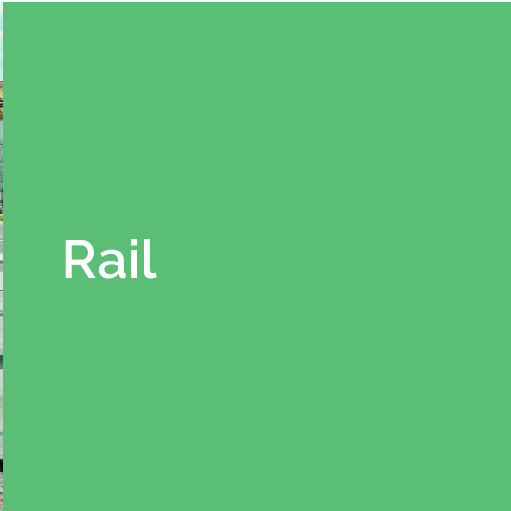

Project Vision & Partners:

EuTravel aimed at supporting the EU agenda towards an open and single market for mobility services by enabling travellers to organise a multimodal trip in accordance with their own criteria and providing multimodal travel service providers an effective way to deliver customised services.

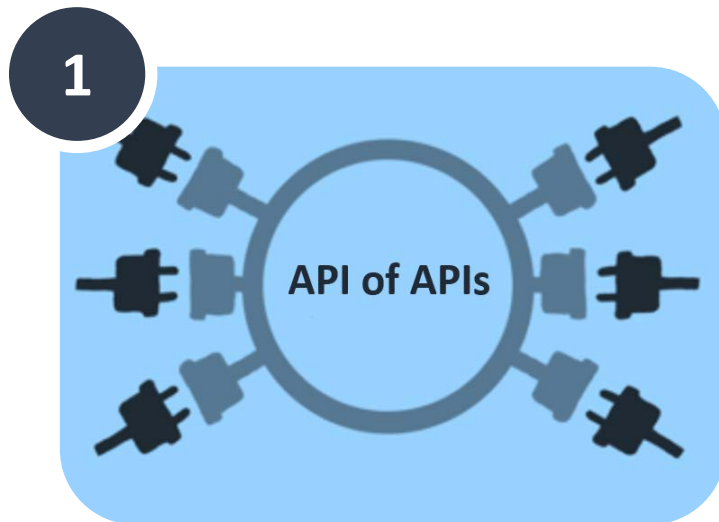

Optimodal travel implies that itineraries are constructed according to user preferences including environmental performance.

MODES OF TRANSPORT

MAJOR ACHIEVEMENTS - PROJECT OUTCOMES

1
A data integration infrastructure 'API of APIs' for Multimodal Travel (Platform)

2
A prototype multimodal planner applied in multimodal scenarios combining air, ferry, train and coach/bus modes

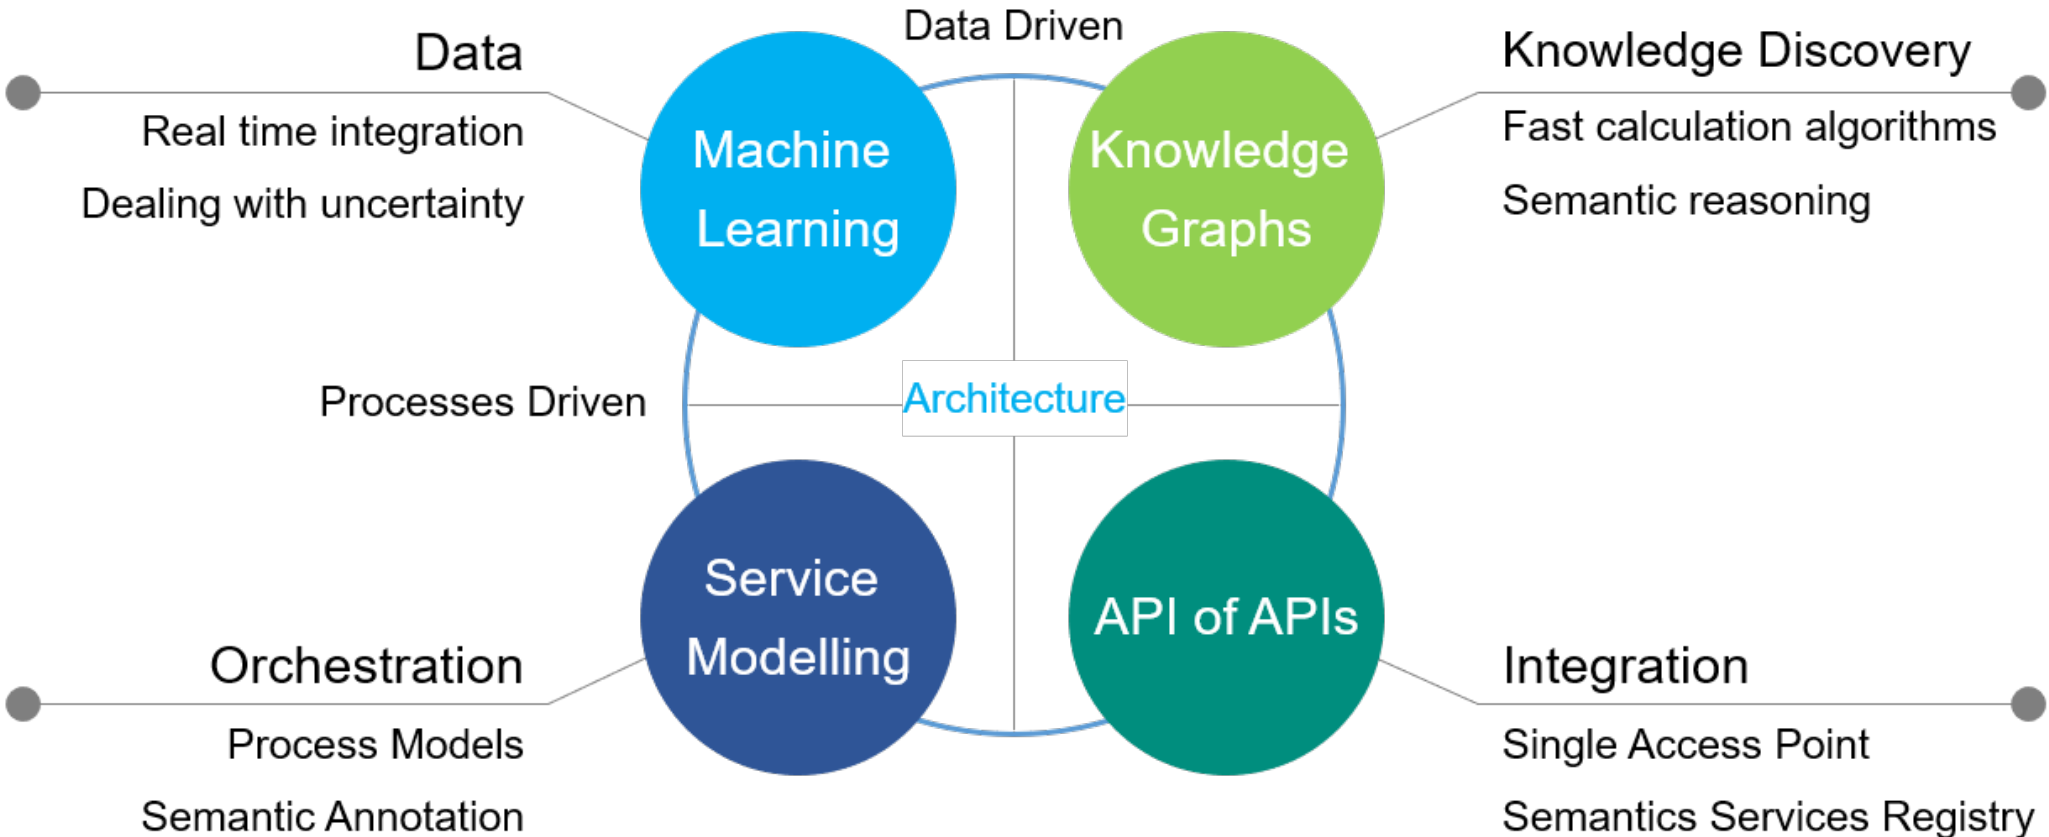

3
EU Multimodal Travel Legal Framework Recommendations

1A - API OF APIS INFRASTRUCTURE

TRAVEL APPLICATIONS FOR SERVICE PROVIDERS, AGENCIES, END USERS

1B - API OF APIS TECHNOLOGY BASELINE

2 - END USER OPTIMODAL TRAVEL PLANNER
